

# DMZ ROADMAP

In July of 2019, DMZ cryptocurrency was created with 11 mil tokens using an Ethereum ERC-20 smart contract.

The original plan was to develop the strategy and then start to sell it in early 2020.

In March of 2020, the covid-19 pandemic came to the United States so the project was put on the shelf.

In November of 2020, plans are hatched to start the project up again in the spring of 2021.

In April of 2021, the main website [DMZ.world](http://DMZ.world) is updated with the new strategy of offering 3 mil tokens for the 2021 token sale.

DMZ Apparel store is setup @ [Shop.Spreadshirt.com/DMZ-Apparel](http://Shop.Spreadshirt.com/DMZ-Apparel).

In May of 2021, the DMZ token store is setup with the domain name: [GetDMZ.com](http://GetDMZ.com).

Social media accounts are established on [Facebook](#), [Instagram](#), [Linkedin](#), [Twitter](#), [YouTube](#) & [Reddit](#).

In June of 2021, the ICO sale date is set for 7-11-2021 till 11-11-2021. We plan to list the ICO on multiple ICO listing sites and release a press release to 150+ online news outlets.

In the spring of 2022, DMZ cryptocurrency will be added to crypto exchanges and crypto price monitoring sites around the world.

In July of 2022, another private sale of 55,555 new tokens will be sold through the token store.

In the fall of 2022, DMZ will apply to crypto payment services to allow merchants to accept DMZ tokens.

In early 2023, DMZ World Fund will begin to issue annual donations to national and international NGOs that help to preserve Earth's resources, support victims of war and terrorism and to foster world federation and cooperation.

DMZ hopes to become a top 10 crypto and get listed on Coinbase and other top rated exchanges in the next 5-10 years.
